INDEX TO VOLUME IX.

Abnormal menstruation, 405
Abscess of the lungs, opening externally, 416
Abercrombie on stimulants in delirium, 419
Acetate of morphia, poisoning by, 218
Adelon on the mummies of Egypt, 404
Alkalies, vegetable, antidotes to, 231
Alveolar process, caries of the, 194
Amenorrhœa, Strychnia in, 418
Amesbury on the treatment of fractures, 74
Anatomy, Pathological, Horner on, 31
Aneurism of the aorta, Bache's case of, 164
Aneurismal tumor, ligature beyond, 223, 436
Aneurism of the heart, Testa on, 268
Angina pectoris, Testa on, 266
Anti-scrofulous liquor of Kœchlin, 443
Apoplexy, appearances of the brain after, 196
cases of, 413
Arachnitis, acute, supervening on chronic, 176
Aromatic principle of the blood, 405
Arsenious acid, in a medico-legal point of view, 214
Arsenic in diseases of the bones, 212
Arteries, twisting of, to arrest hemorrhage, 432
Ascending paralysis, case of, 408
Asphyxia, on pulmonary insufflation in, 193
Asparagus a sedative, 442
Asthma of Miller, case of, 196

Bache's selected cases, 164
Baron's cases of disease treated by iodine, 211
Barruel on the aromatic principle of blood, 405
Bardsley on strychnia in paralysis, chronic diarrhœa and amenorrhœa, 418
Bardsley on moxa and nux vomica in paraplegia 420
Baudelocque on cephalotripsy, 227
Bell on diseases of the spine, 435
Benoisten on longevity, 405
Berzelius, new earth discovered by, 233
on iridium and osmium, 445
Bilious fever, gonorrhœa alternating with, 160
Bile, analysis of, by Braconnot, 446
Billard on calomel in croup, 213
Blood, aromatic principle of the, 405
Blood letting, Hall on, 416
Bonastre on the plant producing myrrh, 230
on the test of myrrh, 230
Bones, arsenic in diseases of the, 212
Bone found in the heart, 412
portion of, in the trachea of an infant, 436
Brachet on opium in inflammation, 13
Braconnot's analysis of bile, 446
Brain, wounds of the, 433
Breakbone fever of Savannah, 374
Bright's cases of dropsy from diseased kidneys, 198
Bromine, 233
Bromine an antidote to vegetable alkalies, 231
Broussais, medical character of, 59
on the sedative effects of asparagus, 442
Brown, Dr Samuel, obituary notice of, 447
Burdach's physiology, 109

Cæsarian operation, state of uterus eight years after, 404
Cæsarian operation per vaginam, 437
Calomel in croup, 213
Campbell's case of gonorrhœa alternating with bilious fever, 160
Camphor, effects of, on the system, 442
Caoutchouc, new mode of preparing in sheets, 233

Caries of alveolar process, case of, 194
Carditis, Testa on, 261
Carotid, the common, tied, 434
Carus' fatal case of inflammation in the external parts of generation, 411
Cassamayor's operation for artificial anus, 434
Catalepsy, Meigs' case of, 372
Ceely on nitrate of silver in painful digestion, 212
Cephalotripsy, 227
Cerioli's case of Tetanus cured by morphia externally applied, 205
Chest, on the physical examination of the diseases of the, 126
Children, mortality of, from cold, 199
Chlococca racemosa, active principle of the root of, 230
Chloride of nitrogen, 234
Chloride of zinc as a remedy, 231
Chlorine an antidote to vegetable alkalies, 231
Chlorides as preventatives of the plague, 207
Chlorine in phthisis, 208
Colic and convulsions, case of croup followed by, 162
Cianca as a diuretic, 439
Christison on poisoning with opium, 428
Cinchona, endermic application of, 397
Circulation, Wedemeyer on the, 190, 406
Clarke on the influence of climate, 313
Climate and epidemics of Savannah, 374
College of Pharmacy, Journal of the Philadelphia, 278
Cold, mortality of children from, 199
Collins' manual for the use of the stethoscope, 126
Condie's case of ovarian pregnancy, 155
Congestion of the cerebellum with retrograde movements, 200
Consumption of the lungs, Parish on, 145
Continued fever, Stoker on, 339
Convention for revising pharmacopœia, 448
Copaiba, Guibourt's new preparation of, 440
Copenhagen Medical Transactions, 122
Copper, sulphate of, in croup, 206
Croup followed by colic, case of, 162
on calomel in, 213
in an adult, 409
on the sulphas cupri in, 206
D'Arset on the chlorides as preventatives of the plague, 207
Delirium, on stimulants in, 419
Delirium tremens, mode of preventing, 209
Denman's midwifery, Francis's edition of, 300
Dengue, Waring's account of the, 377
Deneux's case of tumour mistaken for placenta, 226
Despertes on chlorine in phthisis, 208
Dessaulleurs on opium in rheumatism, 211
Desruelles on hooping cough, 292
Desormeaux's case of croup in an adult, 409
Diseases of the chest, physical examination of, 126
Dieffenbach on ruptured perineum, 438
Diaphragm, cartilaginous state of, 409
Diarrhœa, chronic, strychnia in, 418
Doune on certain antidotes to vegetable alkalies, 231
Dothinentery, epidemic, 410
Dropsy from diseased kidneys, 126
cured by depletion, 202
ovarian, cured by an operation, 220
of the pericardium, Testa on, 262
Duguid's case of intestinal obstruction, 207
Dumerel on iodine in scrofula, 210
Dupuytren's case of aneurism, ligature beyond tumor, 223
Dubled on communication between lymphatics and veins, 405
Duncan's case of hypertrophy of the heart, 412

Earth, new, discovered by Berzelius, 233
Edinburgh surgical hospital, report of, 222
Edwards on the mortality of children from cold, 199
Eissen on gonorrhœal opthalmia, 209
Empyema, Bache's case of, 170
Endermic application of medicines, 392
Epispastic ointment from mezereon, 232
Epidemic small pox at Wilmington, Delaware, 355
Ergot in intermittents, 203
of maize, 229
Extra uterine pregnancy, case of, 437
Fahnestoch on rhus glabrum in ptyalism, 213
Fever, Stoker on, 339

Fever, Tommasini on, 103
Fielitz on sulphas cupri in croup, 206
Fluids, on the pathology of the, 332
Fœtus, on the functions of the liver, &c. in the, 193
connexion between the mother and, 118
Fractures, Amesbury on the treatment of, 74
Francis' edition of Denman, 300
France, on the climate of, 314
mortality in, 450
French contemporary physicians, 55
Furling's case of tetanus nascentium, 422
Fungus hæmatodes of the tongue, 219

Galls an antidote to vegetable alkalies, 232
Galvanism developed by the nerves, 192
Generation, different species of, 111
fatal case of inflammation in the female organs of, 411
Gendron on epidemic dothinentery, 410
Gerhard on the endermic application of medicines, 392
Gibbons on the variolous epidemic at Wilmington, Del. 355
Gibbs's case of neuroma, 222
Gonorrhœa alternating with bilious fever, 160
Gonorrhœal opthalmia, treatment of, 209
Graduates of the University of Pennsylvania, 1830, 454
Guersent on muguet, 200
Guibourt's new preparation of copaiba, 440

Hæmorrhage, on twisting arteries to arrest, 432
Hæmorrhage from fauces, ligature to carotid artery, 434
Hæmorrhage, hereditary predisposition to, 123
Hall on blood-letting, 416
Hanke on chloride of zinc, 231
Hancock on sarsaparilla, 227
on a new hydrogogue cathartic, 441
Hanet's case of congested cerebellum with retrograde movements, 200
Harty on sulphate of quinine as an accelerator of mercurial action, 206
Heart, sounds produced by its healthy action, 197
stethoscope in diseases of the, 272
Testa on the diseases of the, 241
bone found in the, 412
dilitation of the, 269
Hearts of phthisical patients, pus found in the, 414
Henderson on arsenic in diseases of the bones, 212
Henneguin on infanticide, 425
Henry and Plessen on kinic acid, 234
Herbst on the capacity of the lungs, 189
Hewson's case of puerperal fever, 368
Home on the nerves of the placenta, 403
Horner's pathological anatomy, 31
Hooping cough, Desruelles on, 292
Human beings, on the origin of, 114
Hydrocyanic acid, toxicological account of, 214
Hydrops pericardii, Testa on, 262
Hydrorachitis, 437
Hydragogue cathartic, a new, 441
Hydrothorax, with atrophy of lung and cartilaginous diaphragm, 409
Hypertrophy of the heart, Testa on, 269
cases of, 195, 412

Indolent ulcers, blisters in, 432
Inflammation, Brachet on opium in, 13
of the lungs, Bache's case of, 167
of the heart, Testa on, 261
of external parts of generation, fatal case of, 411
Infanticide, 425
Insufflation of the lungs, 193
Intermittents cured by ergot, 203
Intestinal obstruction overcome by mechanical means, 207
Iodine, an antidote to vegetable alkalies, 231
in scrofula, 210
in various diseases, 211
effects of, 443
Iodide of nitrogen, 234
Journal of Philadelphia college of pharmacy, 278
Iridium, Berzelius on, 445
Italy, on the climate of, 322
Italian pathology, Tommassini on, 101

Kidneys, disease of, in dropsy, 198
Kinic acid and its combinations, 234
Kœchlin, anti-scrofulous liquor of, 443

La Roche's case of chronic arachnitis, 176
Ledanois on the male jalap, 230
Lee on the functions of the fœtal liver, 193
Leroux on the alkaline principle of willow bark, 231
Longevity, Benoiston on, 405
Luder's case of traumatic tetanus, 203
Lugol on the effects of iodine, 443
Lungs, Herbst on the capacity of the, 189
Lungs, abscess of opening externally, 416
Lymphatics, communication between veins and, 405

Magendie on pulmonary insufflation, 193
Male jalap, 230
Materia medica and pharmacy, manual of, 349
Mayo's case of ligature to common carotid, 434
M'Fadzen on water dressing in wounds, &c. 423
Mechlis' case of triple origin of vertebral artery, 188
Medical transactions of Copenhagen, 123
politics, 236
statistics, 237
society, officers of, for 1830, 456
Medicines, on the endermic application of, 372
Mehlhausen on ergot in intermittents, 203
Meigs' case of catalepsy, 372
Menstruation, its causes and uses, 112
case of abnormal, 405
Mercurial action promoted by sulphat of quinine, 206
Metastasis, case of, 195
Meteorological journal for 1829, 240
Mezereon, blistering ointment from, 232
Midwifery, Francis's edition of Denman's 300
Miguel's cases of pus in the heart after phthisis, 414
Mitchell's mode of preparing sheet caoutchouc, 233
Momordica operculata, purgative from the, 441
Monstrosity, St Hilaire's case of, 188
Moran on the use of turpentine, 424
Morphia, acetate of, applied externally, 424
Mortality among wealthier and poorer classes, 450
Moxa and nux vomica, paraplegia removed by, 420
Muguet, the disease termed, 200
Muhrbeck's case of acute asthma, 196
Mummies of Egypt, 404
Myrrh, from what plant obtained, 230
test of, 230

Nerves develope galvanism, 192
of the placenta, 403
Neuroma, case of, 222
Nicotin the active principle of tobacco, 439
Nitrogen, iodide and chloride of, 234
Nitrate of silver in painful digestion, 212
Nux vomica in paraplegia, 420

Opium in inflammation, 13
in rheumatism, 211
on poisoning with, 428
Opthalmia neonatorum, treatment of, 210
Orfila on detection of arsenious acid, 214
on poisoning by acetate of morphia, 218
Toxicological account of hydrocyanic acid, 214
Osteosteatoma of the forearm, 220
Osmium, Berzelius on, 445
Ovarian dropsy cured by operation, 220

Painful digestion, nitrate of silver in, 212
Paracentisis thoracis, Bache's case of, 170
Parish on pulmonary consumption, 145
Paralysis, case of ascending, 408
strychnia in, 418
Paraplegia, moxa and nux vomica in, 420
Pathological anatomy, Horner's treatise on, 31
observations by Stoker, 332
Pathology, the new Italian, 101
Pelletier on a new vegetable alkali, 445
Perineum, ruptured, 438
Pharmacopœia, convention for revising, 448
Pharmacy, journal of the college of, 278

Pharmacy, state of in Europe and America, 279
and materia medica, manual of, 349
Physicians, contemporary, of France, 55
Physiology as an experimental science, 109
Phthisis treated by chlorine, 208
Physical examination of diseases of the chest, 126
Plague, chlorides as preventatives of, 207
Placenta, formation and use of the, 117
nerves of the, 403
Polypii of the heart, 264
Pneumonic inflammation, Bache's case of, 167
Poisoning with opium, 428
Pregnancy, extra-uterine, case of, 437
ovarian, case of, 155
Ptyalism suspended by the rhus glabrum, 213
Puerperal fever, Hewson's case of, 368
Pulmonary consumption, Parish on, 145
Pus found in the heart of phthisical subjects, 414

Quercia, Scattergood on, 444
Quinine an accelerator of mercurial action, 206

Recamier's case of extirpated uterus, 225
Rheumatism, opium in, 211
Rhus glabrum a remedy for ptyalism, 213
Robertson's case of wound of the brain, 433
Roulin on ergot of maize, 229
Roux's case of extirpated uterus, 431
Rupture of the perineum, 438
Ryland's translation of Collin on the stethoscope, 126

Salicine, 438
Samuel's case of caries of the aveolar process, 194
Sarsaparilla, Hancock on, 227
Savannah, climate and epidemics of, 374
Scattergood on quercia, 444
Scrofula, iodine in, 210
Scuderio on the effects of camphor, 442
Selected cases, Bache's reports of, 164
Senn's case of tracheotomy, 430
Serullas on iodide and chloride of nitrogen, 234
Serpentaria Virginiana, Smith on, 228
Skin, diseases of, water dressing in, 423
Smith on Virginia snake root, 228
Spine, diseases of the, 434
Stethoscope, manual for the use of the, 126
in diseases of the heart, 272
Statistics, medical, 237
Strychnia in paralysis, 418
Surgical report of Edinburgh Hospital, 222
Symes' Surgical report, 222
on blisters in indolent ulcers, 432

Teeth reproduced after caries of jaw, 194
Testa on diseases of the heart, 241
Tetanus, traumatic, cured, 203
cured by external application of morphia, 205
nascentium, cured, 421
Thal on hereditary predisposition to hæmorrhage, 123
Tobacco, active principle of, 439
Togno and Durand's translation of Edwards and Vavasseur's manual of materia medica, &c. 349
Tonics, endermic application of, 397
Tongue, fungus hæmatodes of the, 219
Trachea, bone in the, 436
Tracheotomy, case of, 430
Tumor in vagina mistaken for placenta, 226
Turpentine, on the use of, 424
Typhus fever, Stoker on, 339

Ulcers, water dressing in, 423
University of Pennsylvania, graduates of, for 1830, 454
Urachus, remains of the, 404
Uterus, state of, eight years after the Cæsarian operation, 404
extirpation of the, 431
imperforated, 438
extirpation of the, 225

Vagina, tumor in, mistaken for placenta, 226
Cæsarian operation through the, 437
Variolaria amara a substitute for cinchona, 439
Variolous epidemic at Wilmington, Delaware, 355

Vegetable alkalies, antidotes to, 231
alkali, a new, 445
Veins, communication between lymphatics and, 405
Vertebral artery, triple origin of, 188
Von dem Busch's translation of Desruelles on hooping cough, 292

Waring on the climate and epidemics of Georgia, 374
Water dressing, in wounds, ulcers, &c. 423
Wedemeyer on the circulation, 190, 406
Williams on the sounds of the heart, 197
Willow, alkaline principle in the bark of the, 231
Wilman's case of extra-uterine pregnancy, 437
Wishart on opthalmia neonatorum, 210
Wounds, water dressing in, 423
of the brain, 433

Zinc, chloride of as a remedy, 231
